Our Faculty

Department of Computer Science

CLARK UNIVERSITY

CHALLENGE CONVENTION. CHANGE OUR WORLD.

Ken Basye

Professor of Practice

Fields of Interest:

Speech Recognition, Natural Language Processing, Machine Learning

Fred Green

Professor

Fields of Interest:

Theory of Computation, Circuit Complexity, Computational Complexity, Quantum Computation, Theoretical and Computational Physics

Personal Website

Li Han

Professor

Fields of Interest:

Data Science, Computational Science, Robotics

Personal Website

Gary Holness

Associate Professor

Fields of Interest:

Machine Learning, Machine Perception, Distributed Systems, Robotics, Statistics, Intelligent Sensing, and Interdisciplinary Applications of Machine Learning, Integration and Prototyping of Architectures and Systems in support of Machine Intelligence

Personal Website

John Magee

Associate Professor, Department Chair

Fields of Interest:

Accessible Computing, Human-Computer Interaction (HCI), Computer Vision

Personal Website

Shuo Niu

Assistant Professor

Fields of Interest:

Human Computer Interaction, Human-Centered Data Science, Social Computing, Machine Learning, Natural Language Processing

Personal Website

Olufemi Odegbile

Assistant Professor

Fields of Interest:

Network Security, Big Data, Network Traffic Measurement, Edge Computing, Internet of Things, and Machine Learning

Peter Story

Assistant Professor

Fields of Interest:

Privacy, Security, Nudging, Technology Adoption,
Full Stack Development, Natural Language Processing

Personal Website

Catalin Veghes

Visiting Lecturer

Fields of Interest:

Software Engineering, Web Development, Machine Learning, Data Mining, Computer Networking, Cloud Computing, Network Security

Personal Website
